CIVIL ENGINEERING CONFERENCE

**CARLOS BALDERRAMA PE**  
**2025 CECON SENIOR PLANNING COMMITTEE CO CHAIR**

Whether you call it the Information Age, the Digital Age, or the Technology Age, one thing is clear—advancements in technology over the past few decades have revolutionized the way we do business. From cutting-edge design software and automation to drones and AI, the civil engineering industry has embraced these innovations to break down barriers, enhance deliverables, and push the limits of what was once thought possible.

That's why the theme for the **12th Annual Texas Civil Engineering Conference (CECON) 2025** is **"Breaking Barriers."** This year's program will feature dynamic keynote speakers, insightful panel discussions, interactive breakout sessions, and thought-provoking poster presentations centered around:

- **Embracing Innovation:** How Emerging Technologies Are Breaking Barriers
- **Innovative Solutions for Complex Challenges:** Breaking Barriers in Design & Construction
- **Fast-Tracking Solutions:** Breaking Barriers in Emergency Repairs & Maintenance
- **Leadership, Communication, and Management:** Breaking Barriers Beyond Engineering

CECON 2025 is proud to collaborate with ASCE Texas Institute Chapters, industry leaders, manufacturers, and supporters to deliver a robust program across diverse civil engineering disciplines.

As **Senior Co-Chair for CECON 2025**, I'm excited to welcome you back to San Marcos, Texas this September. Let's break barriers together—I can't wait to see you there!

# MEET OUR AUDIENCE

## WHO WILL ATTEND?

The attendees of CECON are a diverse group of professionals from across the civil engineering spectrum, including:

- Engineers: Practicing civil, structural, geotechnical, environmental, and transportation engineers at all stages of their careers.
- Public Sector Leaders: Representatives from municipalities, state agencies, and river authorities
- Private Sector Professionals: Consultants, contractors, and developers
- Industry Stakeholders: Exhibitors, sponsors, and business leaders
- Academics and Students: Educators and future engineers

With a sharp focus on delivering high-value content and networking experiences, the conference has seen attendee registration double in recent years, reflecting its growing reputation as the must-attend event for Texas civil engineers. This remarkable growth underscores CECON's success in bringing together decision-makers, innovators, and thought leaders to shape the future of civil engineering.

## WHY WILL THEY ATTEND?

Attendees come to CECON to immerse themselves in a noteworthy environment that brings together civil engineering professionals from across Texas. The conference features inspiring keynotes, engaging panels, and a diverse range of speakers, offering valuable insights and forward-thinking solutions. With robust partnerships with leading institutes like GI, SEI, T&DI, and EWRI, CECON delivers unparalleled technical content. Attendees connect with industry innovators through exhibits, sponsorships, and a variety of networking opportunities, including social events and a technical tour. Whether seeking professional growth, collaboration, or innovative ideas, CECON offers a comprehensive experience that empowers attendees to shape the future of civil engineering.

**NANCY BELTRAN PHD, PE**  
**2025 CECON SPONSORSHIP/EXHIBITOR SUB-COMMITTEE CHAIR**

Entering my second year as part of the planning group, I am excited to extend a warm invitation to the 2025 CECON in San Marcos, TX. This year, under the inspiring theme “Breaking Barriers,” we are set to push the boundaries of innovation and inclusivity within the civil engineering sector.

CECON 2025 offers a premier platform for showcasing your organization to some of the most distinguished members and leaders from the American Society of Civil Engineers (ASCE). The conference provides unparalleled opportunities to network, enhance your brand visibility, and engage directly with industry professionals through our interactive platforms. Thanks to the enduring support of our sponsors and exhibitors, past CECON events have consistently delivered top-tier content and attracted influential speakers.

Whether you are a longtime supporter or considering joining us for the first time, CECON 2025 is a perfect opportunity to deepen your connection with the civil engineering community and increase your market reach. I encourage you not to miss this grand event in San Marcos, where we aim to build the future of civil engineering together. For more details on how to maximize the impact of your involvement and to discuss the extensive benefits, please don’t hesitate to reach out. Let’s break barriers together!

**BRIA WHITMIRE PE, CFM, CPM, ENV SP, ENGINEER V**  
**2025 CECON PLANNING COMMITTEE CO-CHAIR**

Since my first years of being involved with ASCE, around 2005, I valued the comradery, educational opportunities, and support of career progression. Moving to various cities over the years, though, kept me distant and only involved in rather minor roles. Settling back home in Corpus Christi in 2022 it was reassuring to fall right back into place with the local branch and a great mix of new and familiar faces. Becoming the 2024-2025 President of the Corpus Christi Branch was beyond humbling and now being Co-Chair for 2025 and 2026 CECON is simply surreal. Attending 2024 CECON surrounded by all that is civil engineering alongside my ASCE family, seeing colleagues from various other branches, was so uplifting! I am incredibly proud to be a steward to our organization as those were before us, and to help those who will soon replace us. Helping put together CECON 2025 in San Marcos is a fantastic experience and looking forward to another great conference!

## JAMES ZAPATA PE 2025 CECON PROGRAMS SUB-COMMITTEE CHAIR

Last year, as a member of CECON's programs committee, I built meaningful connections in a fun and welcoming environment. CECON attracts the industry's leading experts from all disciplines to share their knowledge. As this year's planning committee chair, I look forward to making this the best CECON yet. This year, CECON will be introducing a brand-new Transportation Design Track. This initiative will showcase the latest emerging software and how it is being implemented with real project examples. For the second year in a row, the Environmental and Water Resources Institute (EWRI) Track will be providing Certified Floodplain Management (CFM) accredited sessions. CECON helps me to stay up to date with the pulse of the industry. I hope to see you there!
